Headteacher: Mrs L Eatherington

Dear Parents/Carers

As part of our curriculum development plans we are asking for your views about the content and design of our 'Community Assemblies'. These happen every week and cover a range of topics relating to our community including military events, important dates and other subjects. This year these have included Martin Luther King Jr Day, Holocaust Memorial Day, the Summer Solstice and World Mental Health Day. These assemblies sit alongside our 'Values' assemblies which focus on our school values (SOAR).

We want all children at Kiwi to feel that they are represented in these assemblies so are asking for your views about what is important in your family, culture, religion and community. From this consultation we will draw up a more representative and relevant assembly series for the children next year.

We are asking you think about which dates, months, events or significant people are central to your family. We can then look across all of the responses and our existing plan to look at providing a greater sense of belonging to all children at the school.

Please email Mr HD via Dominic.Haydn-Davies@kiwi.wilts.sch.uk with your views, suggestions and information before the end of term.

Thank you
